Transition to Retirement Income Stream members only

Your transition to retirement benefit is subject to tax on the earnings of your investments. When a condition of release has been met (for example, retirement), these benefits will become tax-free.

When you advise us you have met a condition of release your current account balance in the Income Stream will move to the equivalent tax-free investment options.

Once in the retirement phase, your balance will be assessed against the Transfer Balance Cap. More information about this Cap can be found at www.ato.gov.au or speak to your financial adviser.

I am now:

At least 60 years of age and I have ceased employment since turning 60.

At least 60 years of age, have ceased employment and intend to permanently retire* from the workforce.

* Permanently retired is defined as never being gainfully employed again for more than 10 hours a week.

Gainful employment means employed or self-employed for gain or reward in any business, trade, profession, calling occupation or employment.

If you meet one of the conditions above, attach proof of age with this form.

When you reach age 65, your transition to retirement pension will automatically transfer to the tax-free investments and count towards your Transfer Balance Cap.
